

WORKSHOP 1 | TEACHING AND LEARNING

Technology-embedded Teaching and Learning

23 APRIL 2019 | 9AM - 1PM | MAIN CAMPUS, UNIVERSITY OF MALAYA

with Assoc. Prof. Dr Azidah Abu Ziden

The advancement of technology has actually forced educators to re-think their teaching and learning environments, incorporating new initiatives and encouraging more hands-on learning through technology tools. The concept of interactive technological based learning environment is beginning to change with educators attempting to align their physical spaces with contemporary pedagogical philosophy. The workshop aims to help participants consider the possibilities for embedding technology into teaching and learning while considering their existing teaching strategies and approaches. The workshop also aims to highlight diverse outcomes that are easily achieved when technology tools are used, such as; learners can access content at the appropriate level, disseminate information in their own chosen way, and begin to develop a way of thinking and working. These outcomes, of course, seem enormous, but in reality, they can be obtained in small steps every day, and are so much more achievable when educators as well as learners grow confident in the knowledge that they have, with technology support tools at their fingertips.

At the end of the workshop, participants will be able to:

- **Identify their current teaching and learning strategies and approach with or without technology**
- **Identify technological applications and resources used in classrooms today.**
- **Be aware of how they might embed technology through a range of teaching and learning strategies.**
- **Evaluate various technological tools to support teaching and learning.**
- **Understand possible challenges and barriers they may face while embedding technology for their teaching and learning**

SPEAKERS'S PROFILE

**Associate Professor
Dr. Azidah Abu Ziden**

Associate Professor Dr Azidah Abu Ziden is a Senior Lecturer in School of Educational Studies, Universiti Sains Malaysia (USM). She is currently is the Deputy Director of the Centre for Development of Academic Excellent and Student Development (CDAE), USM. She obtained her PhD in Higher Education (Instructional Design – e-learning) from University of Canterbury, New Zealand in 2008. Her research interests are in the area of Instructional Design specifically in the e-learning and m-learning environment, Educational Technology, ICT & Multimedia and 21st Century teaching & learning. She has been awarded the Most Innovative Content Award (Hybrid Category) of USM in 2012. She has also been awarded the Excellent Service Award 2012 and the Teaching and Supervising Award 2016 by School of Educational Studies USM. As a USM Master Trainer, she conducts trainings to USM lecturers in the area of instructional design, e-learning approaches and tools, as well as new approaches of teaching and learning. She also conducted Training of Trainers (ToT) and Training on Demand (ToD) sessions nationally and internationally to cater the need for specific courses and institutions. Associate Professor Dr Azidah Abu Ziden is the recipient of the prestigious 10th National Academic Award (Teaching Award) in 2017.

PRE-CONFERENCE WORKSHOP TL1 : Technology-embedded Teaching and Learning

Date	23 April 2019 (Tuesday)
Time	9 am - 1pm
Venue	CUBE, Faculty of Education, University of Malaya
Registration	Online registration
Fees	Local - RM150 International - USD50
Certificate	Provided (e-certificate)
