

ABOUT

PROF. CHIA-CHING CHANG

Professor Chia-Ching Chang is a Biological Physicist. Professor Chang is a Professor in the Department of Biological Science and Technology, National Yang Ming Chiao Tung University. Prof. Chang is also co-appointed as a Research Fellow by the Institute of Physics, Academia Sinica, too. At the same time, Prof. Chang is also appointed as an adjunct Professor in the Department of Electrophysics, and International College of Semiconductor Technology, National Yang Ming Chiao Tung University. Recently, Prof. Chang was appointed as Visiting Professor of INFOMM, Universiti Sains Malaysia (USM). Professor Chang is also a Fellow of Vebleo and a Fellow of IAAM.

Prof. Chang's research interest is focused on biointerface science and technology. Unlike conventional biointerface sciences which merely focus on molecules, cells, or tissue systems, my research interests are integrating the knowledge of Physics, Materials, Electronics, Chemistry, and Biotechnology in developing and characterizing the "Novel functional Biomaterials", "Biophotonics", "Protein folding", "Biosensors" and "Bio-electronics devices" of interest and gaining the knowledge of these novel issues.
