

ABOUT

DR. YEN BACH TRUONG

Dr. Yen Bach Truong is a Principal Research Scientist and Team Leader for the Functional Materials Team at the Commonwealth Scientific and Industrial Research Organisation (CSIRO)-Manufacturing Research Unit. She holds a Master in Analytical Chemistry from RMIT University and a PhD in Chemical Engineering in Fibre Science from Monash University. Her expertise is in the development and applications of electrospun nanofibrous materials. She has been working in the fabrication of electrospun nanofibres for a range of applications and has published over 45 peer-reviewed papers in this area in the last 10 years. She chaired the Inaugural International Conference on Electrospinning (Electrospin 2010) in Melbourne, Australia, in 2010.
